- To PCs - Macs - Smartphones - Tablets - TVs with set top boxes

A COMPLETE IPTV SOLUTION

The partnership between Visionary Solutions and InfoValue brings Internet Protocol Television (IPTV) to a new level: it's an advance so great we need to call it IPTV 2.0

Visionary Solutions contributes its industry-leading encoders, InfoValue its advanced server software plus network design and installation. Together we can offer you a complete, fully-integrated, fully-commissioned solution for full-screen, full-resolution streaming video and video on demand in standard or high definition.

It's secure. It's easy to use. Viewers can watch live or on-demand channels originating from any video source. You'll webcast or multicast over affordable IP networks, including private networks, virtual LANS, the Internet and Internet2.

Use IPTV 2.0 on corporate or government networks, in schools or universities. Stream any kind of video programming or digital signage content, even broadcast or cable TV feeds, anywhere you need high quality, low cost and advanced functionality.
