

# AUDITORIUMS SECOND PRIZE

## SOUTHERN ILLINOIS UNIVERSITY

*Lawson Hall  
Carbondale, Ill.*

Lawson Hall on the Carbondale campus of Southern Illinois University includes 10 new pie-shape rooms that come together at a central core where all their AV equipment is managed. Pictured is one of the building's four large identical lecture halls. Used as both a classroom and presentation venue, the rooms have side-by-side Sharp projectors that will project two images on one screen, allowing presenters to show both video and slides at the same time. Smart Sympodium lecterns let presenters make annotations on the big screens as well as control AV functions easily from the front of the rooms.

### STATS

AV cost: \$976,000 (entire 21-room project)  
Total cost: \$4,000,000  
Executive architect: Phil Gatton, 618.453.4172  
System designer: Bill Nattress, Shen, Milson & Wilke, 312.559.4585  
AV dealer/installer: Audio Visual Systems, 312.669.9692
