

The Leading Nationwide Integrator for Audio, Video and Collaborative Communication Solutions

SPL Selected to Integrate High Definition Videoconferencing Exhibit at InfoComm 2007

InfoComm is the THE event for the audiovisual industry and this year's InfoComm is June 19-21 at the Anaheim Convention Center.

For the second consecutive year, SPL Integrated Solutions has been selected by InfoComm to integrate the High Definition Videoconferencing Exhibit. The exhibit will showcase high definition systems from Polycom, Tandberg, LifeSize and Codian. This exhibit will allow InfoComm attendees to see live demonstrations of the hottest new communication technology! To learn more about the exhibit, you can visit InfoComm's website at http://www.infocommshow.org/html/842_3436.htm

If you are not attending InfoComm but would like to learn more about high definition videoconferencing, visit our website at www.splis.com/hdvtc.

Visit SPL in Booth #15034 While at InfoComm

After seeing demonstrations of high definition videoconferencing, be sure to visit SPL in booth number 15034 which will be right next to the HD exhibit. If you need a free pass to the InfoComm Exhibit Hall, please call your local SPL office.

19 SPL Locations Awarded Certified AudioVisual Solutions Provider (CAVSP) Status in 2007

InfoComm's Certified AudioVisual Solutions Provider is the only company-level certification program available for the commercial AV industry. Each office or location needs to be certified separately by InfoComm. At the beginning of 2007, SPL made a corporate commitment to certify 100% of our location. We are well on our way to meeting this objective. Here are the current SPL offices that have been certified:

Gold CAVSP (75% of sales and technical staff maintain InfoComm certification)
Denver, Kansas City, Chicago, Greensboro

Silver CAVSP (50% of staff are InfoComm certified)
Newport News, Houston, McLean, Northern Virginia, Phoenix, Boston, Detroit, Dallas

Basic CAVSP (25% of staff are InfoComm Certified)
Atlanta, Orlando, Columbia, Northern California, Dayton, Freeport, Cincinnati

Office of Emergency Management Integrated by SPL Featured in *Systems Contractor News*

The April Issue of *Systems Contractor News* carried an in-depth article on a project that SPL recently completed at the New York City Office of Emergency Management. Based on a design by Shen, Milsom & Wilke, SPL integrated a wide range of audio, video and communication technology for a mission-critical government installation. Videoconferencing, video walls, large plasma displays, massive networking structure, hundreds of information sources – this project had it all! You can read the article here:
