INNOVATION AND IMPACT

ELEGANT SOLUTIONS

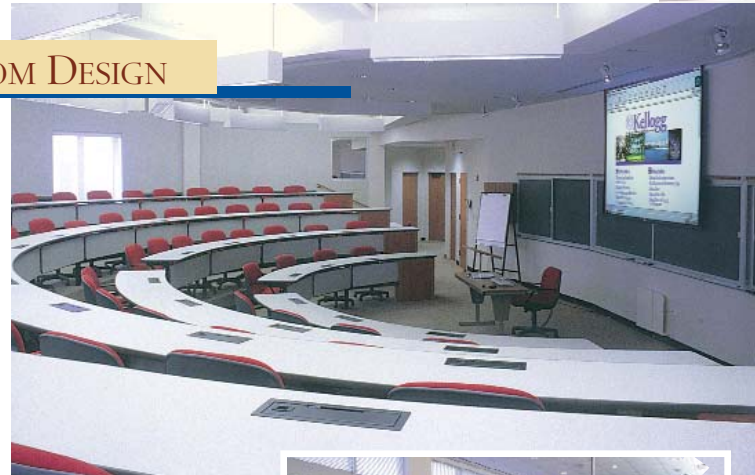

Are you looking for a sophisticated, yet straightforward audio/visual system that will help you communicate more effectively with clients, students or staff? United Visual can help you tackle the most demanding applications.

Accreditation Council for Graduate Medical Education, Chicago

EXPERT CUSTOM DESIGN

Our engineering staff can design a system to your exact requirements, and provide CAD drawings and control system programming, as well as equipment and installation.

SEAMLESS RETROFITS

Motorola Galvin Center, Schaumburg, Illinois

Some of our best efforts are remodeling projects. For example, we added an LCD projector, surround sound and a Panja WebLinX networked control system to 21 training rooms in the facility shown at left.

UNIQUE SITUATIONS

United Visual's systems team can help with any project—whether you're building a state-of-the-art boardroom or something as complex as this 16-cube video wall.

UBS Warburg, Chicago, Illinois

EDUCATIONAL APPLICATIONS

Schools at every level are among United's most important customers, as are corporate training departments. We have expertise in projection systems, sound systems, distance learning, video distribution and video production systems.

LOW COST LEADERSHIP

We understand how important dollars can be and are determined to offer quality systems within your budget. Our prepackaged a/v systems, which include data/video projector, screen and sound system, start for less than \$9,500 installed.

Award-winning conference rooms

“The Best Presentations Rooms” is a national contest sponsored annually by *Presentations Magazine*.

The rooms shown here were chosen among the nation’s best in 1996, 1997, 2000 and 2001.

We at United Visual are proud to receive national recognition for our innovative systems design. We hope you’ll call us whenever you have questions about installed a/v systems at any point in the design process.
